

VW Simulators x 2

- **Description:** The VWs provide active engagement; either the TV and sound system in the rear, or the simulator inside the vehicle. The simulator can be used to monitor and test drivers' reaction times and to highlight the risks of using mobile phones, drink driving and driving in bad weather conditions.
- **Main topic:** Almost all topics can be covered using specific elements of the vehicle.
- **Target group:** Aged 16+. The simulator is often seen by parents of younger children as a form of entertainment almost like an arcade game. This must be discouraged and an explanation given why people aged 16+ are the main target group.
- **Training required:** Yes - simulator familiarization and Understanding Young Drivers and, ideally, Drink Driving Awareness courses.
- **Staffing:** Two
